

Rayat Shikshan Sanstha's
Chandrabai - Shantappa Shendure College, Hupari
Student Adoption Scheme (Mentor Mentee Scheme)

Today's education system is student centric. Overall progress of the student is the main aim of our parent Institute. Therefore Rayat Shikshan Sanstha has commenced Student Adoption Scheme in its all branches. Under this scheme students of the college are monitored. Teachers help them for academic growth.

Objective of the Scheme –

- 1) To monitor overall growth of the adopted students.
- 2) To attain academic progress of the students.
- 3) To provide academic as well as psychological counseling at individual level.
- 4) To make changes or to improve facilities as per suggestion given by the student.

The college has separate Student Adoption Committee. 50 to 60 students are allotted to each teacher. Parent teacher monitors the students allotted to him or her. Minimum two formal meetings are arranged in every academic year. On informal basis students can meet their parent teachers any time and can discuss their problems. Teachers try to help the students or try to reduce their stress. The Parent teacher encourages their adopted students to participate in co-curricular activities. Many students enrolled in the college basically belong to the rural area. Therefore they need more guidance or help. A parent teacher helps such needy students. Student Adoption Scheme is one of our best practices in the college.
